

APPENDIX 10b:

Example Club Selection Policy: Bronze Standard Submission

The *[Club]* Committee have agreed upon the selection policy identified below. Any issues with the policy should be raised in writing through the Club Committee.

AIMS OF THE POLICY:

- To ensure that all members, coaches, and volunteers understand the criteria for selection into teams within this Club
- To set out a clear framework which highlights the team structure within the Club, and supports members participating and competing at a level which is appropriate to them, and therefore benefits the Club and the individual
- To clearly identify the process by which coaches and support staff will select a team
- To ensure that the selection process is fair, transparent and includes all individuals who wish to be involved in a team

THE POLICY:

- The Club has a number of teams (*identify what the team structure looks like here*) and selection to those teams is based on a team squad system (*or whatever system the Club applies*). This will enable players to be assigned to a team which is reflective of their level of play, but permits movement between teams if necessary and where appropriate.
- All players who express an interest in playing for a team within the Club will be allocated to a team squad.
- Selection will be made to the team from that squad on a weekly (*or however frequently the matches are*) basis.
- The team will be selected based on the following criteria: (*identify the Club criteria from the below list, or add your own ...*)
 - Performance in previous matches/tournaments/competitions
 - Attendance at training
 - Availability for the competition/tournament/match
 - Geographic location
 - Whether the individual has been selected for the team previously or not
 - How long the individual has been playing at the Club
 - Performance during training sessions
